DETAILED ACTION

1. This Office action is in response to the remarks filed June 24, 2003. Claims 1-3, 6, 8-12 and 14-20 are pending.

2. Claims 1-3, 6, 8-12 and 14-20 are rejected under USC 102(b) as being anticipated by Ichihashi (US 5,792,731) for the reasons of record.

3. Applicant's arguments have been considered but are not deemed persuasive.

Applicant argues that Ichihashi is directed to a lubricating composition for continuous variable transmissions whereas the present invention is directed to manual transmissions. Applicant argues that Ichihashi's preferred phosphorous-based extreme pressure agent is tricresyl phosphate or amine salt of alkyl or alkenyl acid phosphate ester and the alkaline earth metal detergent is calcium phenate. Applicant argues that there are no examples wherein the phosphorous-based compound is a phosphite or the alkaline earth metal detergent is an alkaline earth metal salicylate. Applicant argues that there is no motivation to combine a phosphite with an alkaline earth metal salt of a carboxylic acylating agent.

It should be noted that Applicant's intended use is given no patentable weight in claims that are directed to the composition per se. Ichihashi teaches a composition wherein the alkaline earth metal detergent may be a salicylate.

With respect to phosphite compounds, Ichihashi teaches at column 3 line 66 through column 4, line 2, examples of the phosphite ester. While Ichihashi does not contain an example wherein the phosphite ester and acylating agent are combined, it is well settled that a reference should be considered for all that it teaches and is not

limited to the preferred embodiments or examples therein. In re Fracalossi, 215 USPQ 569 (CCPA 1982).

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
